JOINT CALL FOR PROPOSALS FOR FRANCO-GERMAN INNOVATION PROJECTS ON ARTIFICIAL INTELLIGENCE TECHNOLOGIES FOR RISK PREVENTION, CRISIS MANAGEMENT AND RESILIENCE

Overview of pre-selected project proposals

Application area health:

AIOLOS - Artificial **I**ntelligence To**OL**s for **O**utbreak Detection and response; consortium leaders: Sanofi Pasteur & Fraunhofer Society

Application area economy:

GreenBotAI - Frugal and adaptive AI for flexible industrial Robotics; consortium leaders: GrAI Matter Labs SAS & Fraunhofer Society

GANResilRob - Generative Adversarial Networks and Semantics for Resilient, Flexible Production Robots; consortium leaders: Two-I SAS & Forschungszentrum Informatik

Application area sustainability:

CONTRAILS - Contrails in the Climate System: from Observation to Impact Modeling and Prediction; consortium leaders: Thales Research and Technology & Deutscher Wetterdienst,

RenovAIte - Boosting renovation industry with AI; consortium leaders: VINCI & OFFIS Institut für Informatik
